## **OLYMPIC GOLDEN GIRLS TRICKETT AND RICE TO THE FORE**

*Athens Olympic 100m breaststroke silver medallist and seven-time FINA World Short Course champion **BROOKE HANSON** casts her expert eyes over the women's and men's events at this year's Telstra Australian Championships in what is shaping up to be a very competitive six days in the pool.*

The women's events at the **2009 Telstra Australian Championships** and FINA World Championship Selection Trials will be as competitive as ever as the girls fight for a place on the team bound for Rome.

The Australian women currently hold eight world records:

- **Libby Trickett** in the 50 metres at 23.97 and 100m freestyle at 52.88;
- **Stephanie Rice** in the 200m 2.08.45 and 400m 4.29.45 individual medley;
- **Leisel Jones** in the 100m breaststroke 1.05.09;

One of our current world record holders from the 4x200m freestyle relay from Beijing, who will miss the World Championship trials is **Kylie Palmer** who is recovering from shoulder surgery while team mate **Linda Mackenzie** retired after winning gold in Beijing.

World record holder **Leisel Jones** has confirmed she will race the 100m breaststroke at the Australian Championships but will not be making herself available for the World championship team.

This year has seen her change her training schedule that only sees her in the pool three times a week.

"It is the different aspects that keep me really interested and it is all based around swimming fast and extending my career," Jones said two weeks out from the championships.

Since Beijing, **Libby Trickett** has made the move from Brisbane to Sydney to train alongside **Eamon Sullivan** and under coach **Grant Stoelwinder** while Trickett's former coach **Stephan Widmer** is now guiding Olympic team mates **Jessicah Schipper** and **Sophie Edington**.

After recovering from an operation that kept her on the side lines for months **Jade Edmiston** is looking at making a successful come back to sprint breaststroke and her results at the recent State championships and Japan Open Meet show she's in form.

# IS YOUR 3G NETWORK LETTING YOU DOWN?

**IF YOUR MOBILE BROADBAND IS EXCRUCIATINGLY SLOW, IT COULD BE THE NETWORK YOU'RE USING.** The Telstra Next G™ network is new and built for the future, not an upgrade to an old network. Because it is a superior 3G network across cities in Australia, you'll get better coverage in more buildings, car parks, tunnels and lifts. This means you also have access to higher download speeds in more places. So if your network's letting you down, try the network that works better in more places.
